

GAMING KEYBOARD SET-UP

This keyboard utilizes a Plug-and-Play functionality, so it is ready for use as soon as you plug it into a USB-compatible Windows (versions 7 and up) computer.

Additional software is only necessary to customize the LEDs, keyboard and macro settings. To install, visit tzumi.com/alphagaming and download the free Viper Keyboard software.

INTRODUCTION AND FEATURES

Enjoy seamless connectivity and unmatched typing quality with the Alpha Gaming Viper USB Mechanical Computer Keyboard. This keyboard's comfortable gamer-friendly functionality and aesthetic delivers a quick response time, custom LED settings in the full RGB spectrum to fit every personality and battle. It also features clicky keys and a free software suite available for download, making advanced key customization easy. Whether gaming or working, you can rely on this handy lightweight mechanical keyboard to complete every task with ease.

WARNINGS AND SAFEGUARDS

- Do not use the Viper Keyboard for anything other than its intended use.
- This product is not a toy and should be kept out of reach of children.
- Do not attempt to disassemble or modify your unit in any way.
- Keep the unit away from all heat sources, including direct sunlight. Do not expose the keyboard to humidity, water, or any other liquid. Do not expose to extremely hot or extremely cold temperatures/conditions.
- Do not operate if the unit has become wet or moist. The unit is not waterproof or water-resistant.
- Do not damage the USB power cord by bending, twisting, pulling, or heating it.
- Do not use harsh chemicals (such as alcohol, benzene, thinners, etc.) or detergents to clean your keyboard.
- Never attempt to disassemble or modify your keyboard in any way or use with incompatible computers. Doing so violates any warranty in place and may cause permanent damage to the unit.
